HEALTH SUPERVISION IM COUNTRY NEGLECTED

Children of Rural Schools More in Need of Medical Attention Than in Larger Communities.

ALSO COUNTRY CHILDREN ARE NOT MORE VIGOROUS

Houses and Schools Are Less Well Ventilated and Public Sanitation Is Badly Neglected.

WHAT WILSON SAID IN REPRIMANDING OFFICERS

Make a plain syrup by mixing one pint of granulated sugar and ½ pint of warm water and stir for 2 minutes. Put 2½ cances of pure Pinex (fifty cents worth) in a pint bottle, and fill it up with the Sugar Syrup. This gives you a family supply of the best cough syrup at a saving of \$2. It never spoits. Take a teaspoonful every one, two or three hours.

The effectiveness of this simple remedy is surprising. It seems to take hold almost instantly, and will usually conquer an ordinary cough in 24 hours, it tones up the jaded appetite and is just laxative enough to be helpful in a cough, and has a pleasing taste. Some of the dealers attempted to placard the fruit with its proper name but were generally wrong in their selection of names. I found Winter Nellis labeled Boses, and in a restaurant I found a delicious Anjon paraded on the bill of fare of 'Anjou Pears.' I asked the waiter what they were and he said they were Western Anchou pears. Later, he thanked me for a little pointed information.

"To prevent these mistakes, growers might place a large card poaring the name of the pears and the district where they were grown on top of the fruit boxes. Then, when the dealer unpacks he can hang the card in front of the pyramid, thus giving legitimate information to the public and advertising the fruit district.
